Skate Footwear. Since 1994.

GLOBE

Established

1994

After 10 years of design, production and distribution of third party brands in Australia with Hardcore Enterprises, the Hill brothers created a global boardsports brand of their own, first with shoes for skaters and surfers in the mid 1990s and then with clothing and skateboards for the broader market. Today, the same crew of skaters, surfers and snowboarders that started the Globe brand has grown to an international network of designers and riders that are united by boardsports, street culture, media, design and film.

Footwear

S2/2024

Our Season 2 / 24 collection features a series of rider-focused colorways with a focus on skate functionality & durability. Each rider sku brings a creative touch to the range. Val Bauer's first rider sku leads the range with a luxurious black/blue leather Surplus. Sammy morphs the Holand cupsole into a uber durable skate monster. Christian's take on the LAll forms a stylish nutmeg suede on a new vulcanised foxing wall, super wearable. Finishing the range with Austyn's pro shoes; clean mono-colour skate specific suede uppers with a corded suede mid and a oiled suede dover to round off things. Globe, supporting skateboarding since 1994.

The Surplus — Featured Colourway

Featured Colorway

VAL BAUER: THE SURPLUS

"I leant towards the Surplus silhouette as I felt it had the most potential to make something good looking and casual. I went for Leather as it's important to me that the shoe lasts longer and looks even better when worn in... hence the bleeding black to blue feature as it wears in. The little angel featured throughout the shoe was drawn by one of my best friends and artist Delapaix, who's been tattooing me a lot throughout the years - this particular angel I have tattooed on my back is paying homage to my late grandmother. My ultimate goal was to design a shoe that I would be stoked to skate in everyday. Hope you like it!" – Val Bauer

When Austyn joined the team, we immediately started working on a colorway for him to skate in. Austyn was drawn to the Dover because of its simplicity, durability and overall comfort. After adjusting the shoe to have a lower profile, internal padding for protection and additional holes for breathability, we can proudly say we have rebuilt a classic silhouette to be a highly functional skate shoe.
